2. Participants

11 Biology Club students

3. Counterpart

10 Students majoring in Japanese and two chaperones, Anno Gymnasium, Siegburg, Federal Republic of Germany

4. Schedule

1. School introduction

- Video introduction of the school

2. Classroom observation

- Observation of English, math, and chemistry classes

3. Experiment with the biology club

- Joint experiment to look at fibers through a microscope

4. Commemorative photo

Classroom observation

Sharing ideas with the Biology Club students

5. Additional information

- ◆ The German students observed a second-year class and were surprised by the large class size.
- ◆ They conducted a joint experiment with the Biology Club students to examine clothing fibers under a microscope.
- ◆ Students worked together enthusiastically and cooperatively on the experiment. They actively shared in English what they saw under the microscope and the difficulties they encountered in the experiment.
